If this happens you will be subject to the cancellation charges set out in the cancellation section of these terms and conditions.

- 21.7 Some ISPs will not allow their users to send mail from outside of the ISP's network. This results in guests being unable to 'send' e-mails from their PCs using an Email client etc. The only alternative to this is to use the service providers Web-mail interface.
- 21.8 When using the wi-fi service you and your party agree at all times to be bound by the following provisions:

- 21.11 It is the responsibility of you and your party to ensure that any wi-fi enabled device is compatible with our wi-fi service. The availability and performance of the wi-fi service is subject to all memory, storage and any other limitations in the guest's device.
- 21.12 We are not responsible for data, messages, or pages that you may lose or that become misdirected because of interruptions or performance issues with the wi-fi service or wireless communications networks generally. Network speed is no indication of the speed at which the guest's wi-fi enabled device or our wi-fi service sends or receives data. Actual network speed will vary based on configuration, compression and network congestion.
